

Trustee Forum

The Trustee Forum is an open forum for pension scheme trustees, which targets their specific needs. The operation of the forum and the needs it serves are driven by the trustees who participate and by a steering group, composed for the most part of scheme trustees. The Trustee Forum run two training courses regularly during the year; trustee essentials and trustee investment. It also runs highly successful evening meetings during the year to which all trustees are welcome to attend. Trustees who wish to receive information on trustee events and publications as well as other trustee issues should contact the IAPF in order to be included on their trustee mailing list.

The Trustee Forum was set up jointly by the Irish Business & Employers Confederation (IBEC), the Congress of Trade Unions (ICTU) and the Irish Association of Pension Funds (IAPF) - the representative body for pensions in Ireland, under the auspices of the IAPF with the support of The Pensions Board.
